

# Installing VSO Image Resizer

Prior to installation please check the application is not already installed. You can check by right clicking on an image file and looking in the context menu for; VSO Image resizer, see below fig 01.

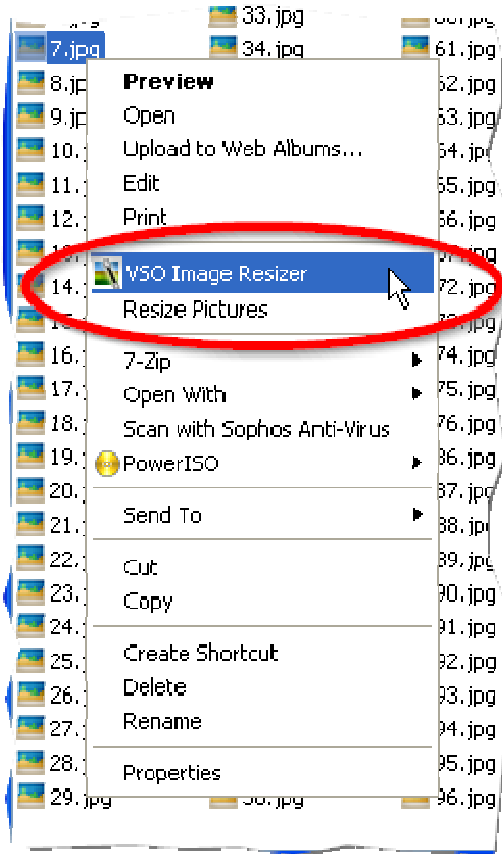

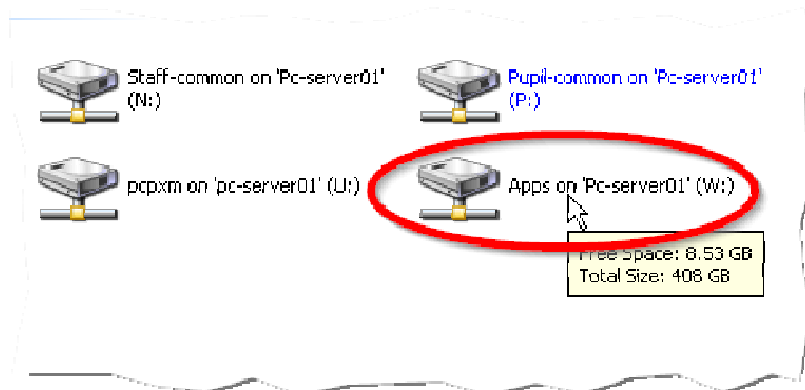

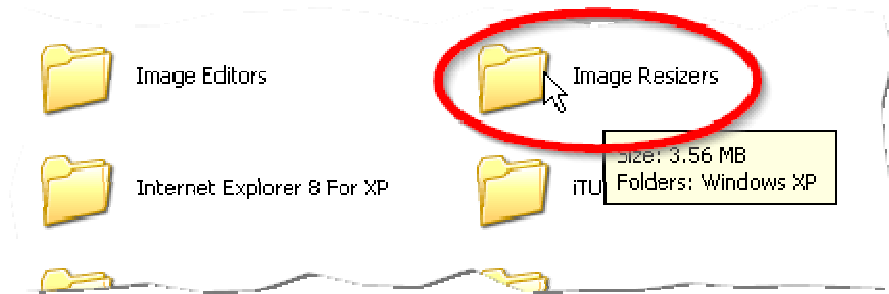

Fig 01

If VSO Image Resizer is not installed  
The installation file can be found on  
the Apps Drive (W:)

Double Click on  
the Apps drive.

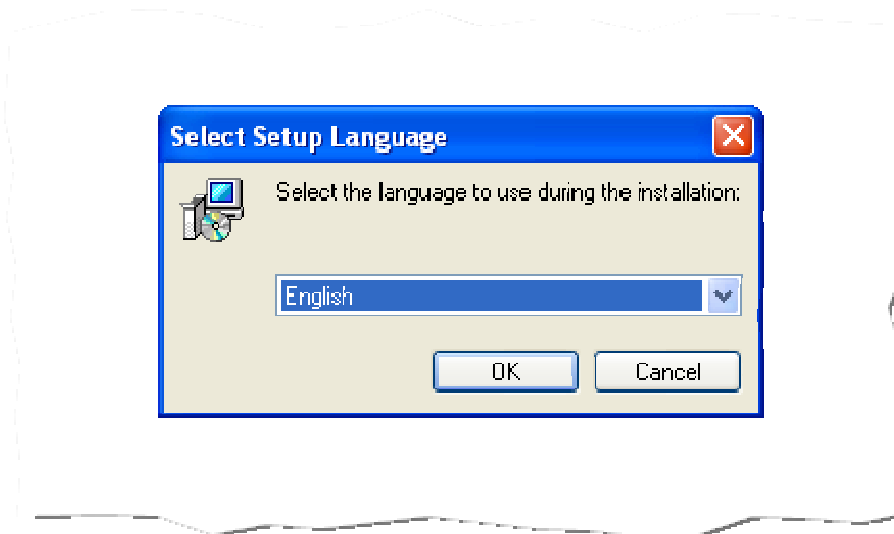

Drill into the folders by double clicking on them until you find the VSO Image Resizer set up.

It is worth pointing out at this stage not to upgrade past this version as the new version comes bundled with a huge amount of unwanted software.

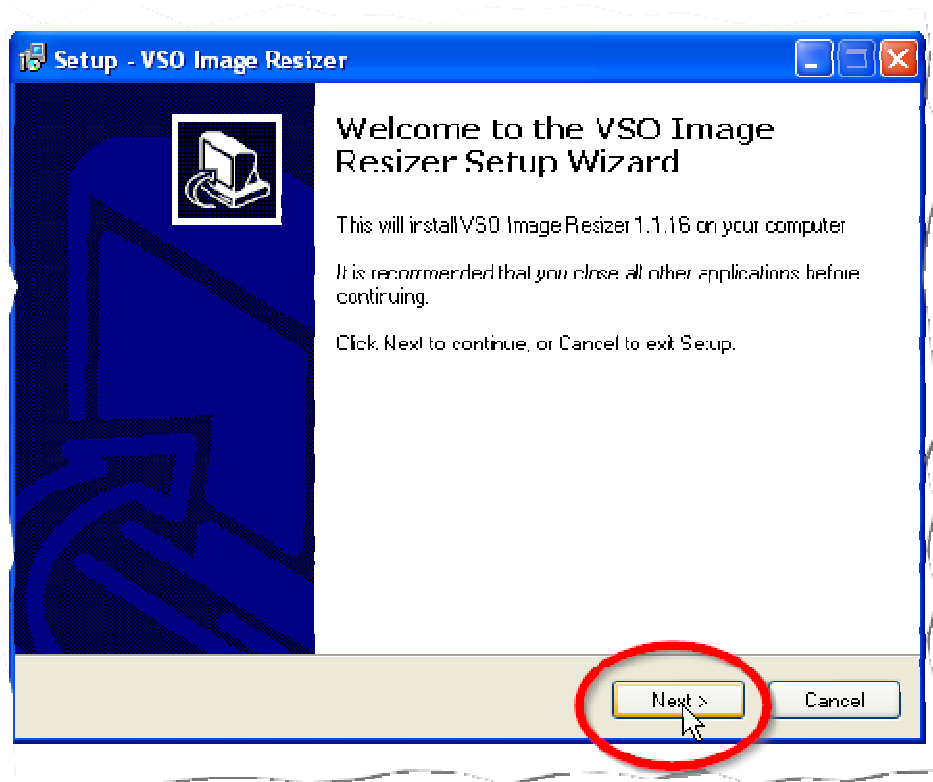

Double click the Setup file.

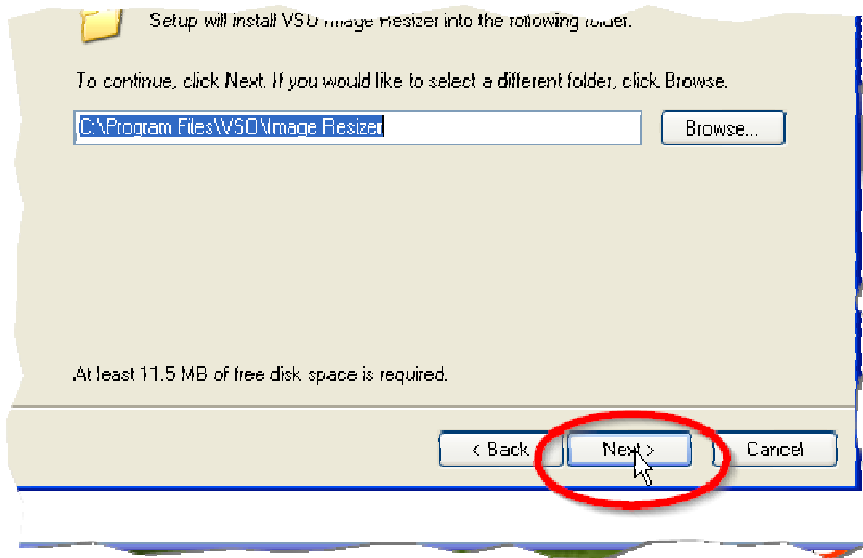

You can now run through the set up routine.

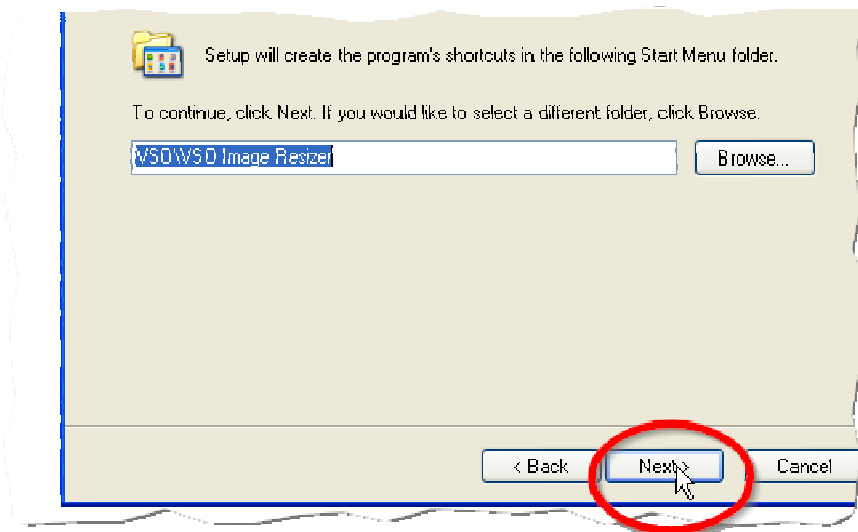

Click OK.

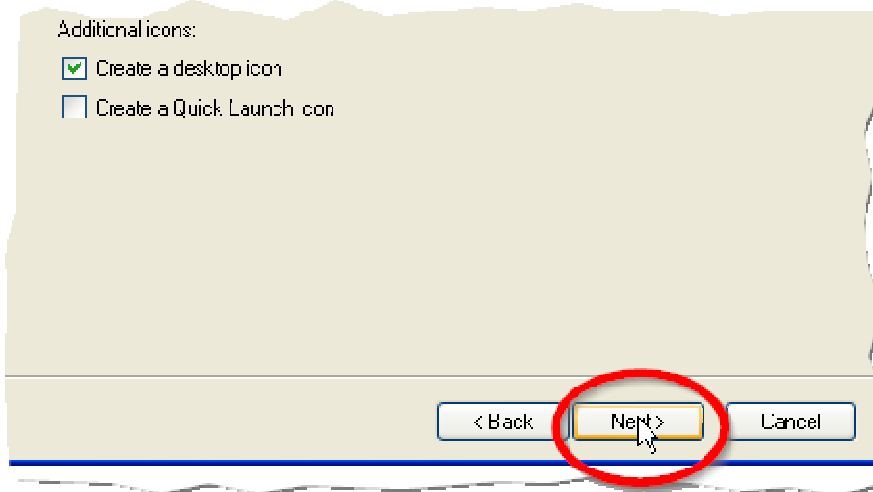

Click Next.

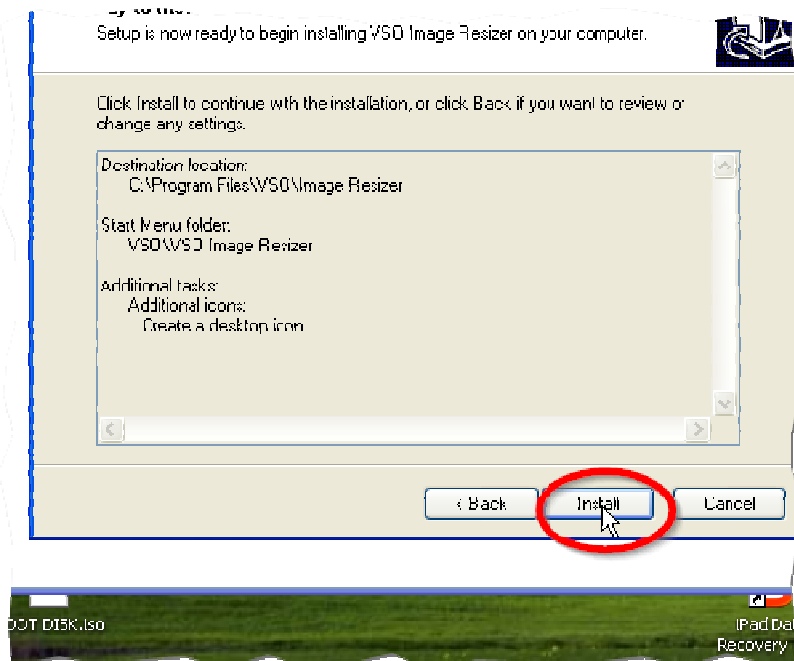

Click Next.

Click Next.

Click Next.

Click Install

Click Finish, the installation is now complete
